

### INDUSTRIAL MARKET OVERVIEW

CLAIRE SEARLS, *Director of Research*

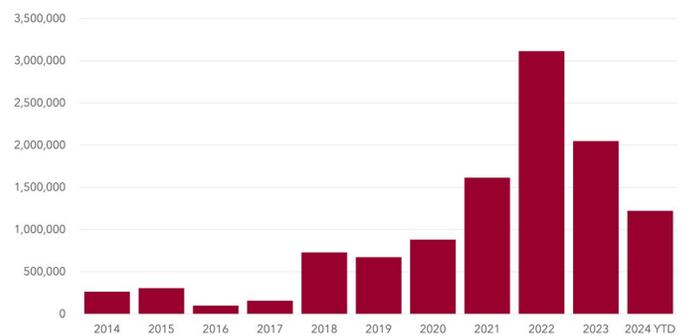

Demand indicators were positive at the start of 2024. Net absorption tempered in the first quarter; however leasing activity remained elevated. New leasing activity was healthy with the bulk of signed leases generated in the South Fort Myers submarket. The City of Fort Myers submarket drove positive net absorption, accounting for 70% of the first quarter's total. New supply pushed vacancy rates to an average of 4.9%. Annual rent growth is expected to continue across Fort Myers, however. At \$13.23 psf, Lee County averaged another record high rate for the market. Much needed new construction brought quality space to occupiers as the Lee County industrial market had another solid quarter of growth.
